SILVINO PONCE

FOOTHILL PACKING

In the field, they call me “wise guy” because I use my mind. When everything in your mind is positive, you can do anything. I tell my crew that we are all here to work together and with a positive attitude, we can do anything.

“I love working for this company”.

What do I love the most? Everything. I love to work. I love to be outside. I love the people. I love that I have the opportunity to do this for people I like.

When a consumer is purchasing fresh leafy greens, we’d like them to know much we care about the final product. There is much to understand about what happens to the seed as it grows and there is much work involved to get it to the grocery store.
